

# Lightning Demo

## Notes:

### **Goal:**

Help connect students connect with job opportunities based on their desired future plan and allow students to build and market their academic achievements and work experience to potential employers from day 1 of education.

### **Feature:**

- Student's login interface
- Student's dashboard interface
- Estimating learning process system
- Auto-scheduling function
- Student virtual profile interface for companies to consider
- Creating Study Groups between students
- Interface listing customized job/internship opportunities for the student

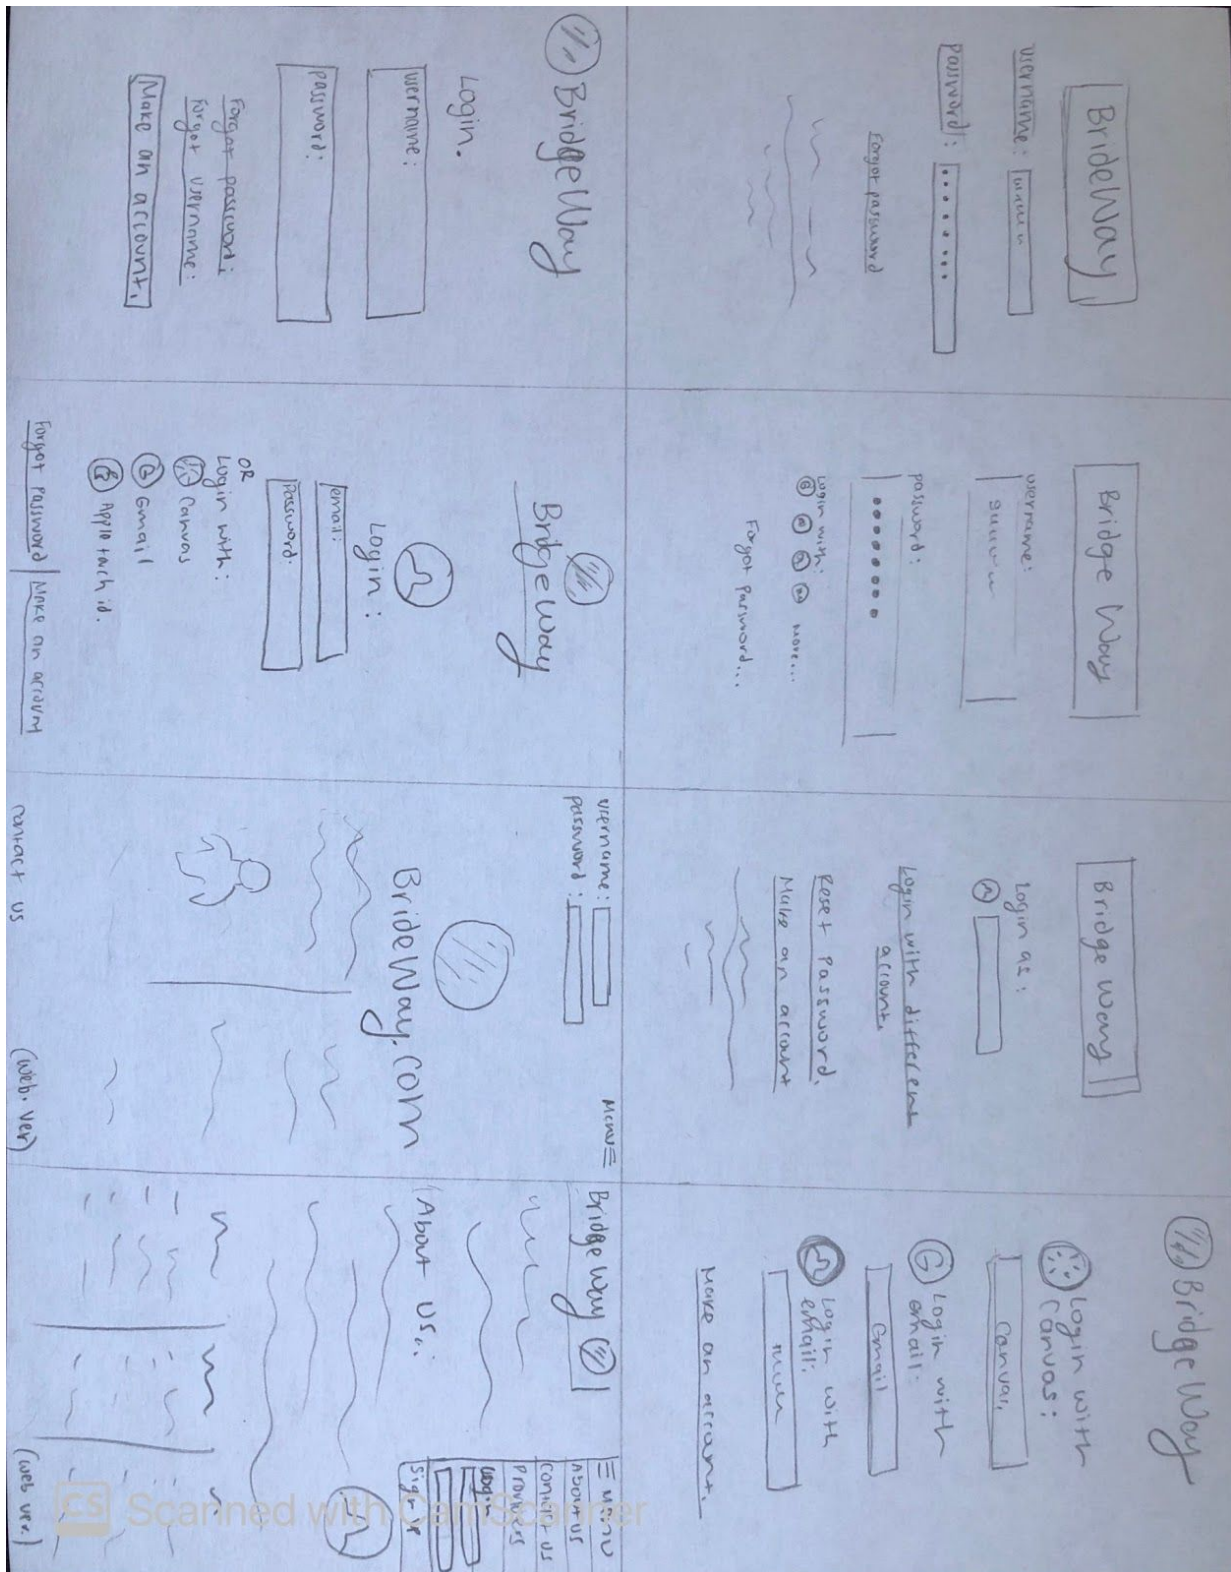

## Ideas

### **Non-intuitive features:**

- Learning Process Estimating System
- Self-Scheduling Works and Tracking
- Student virtual profile interface for companies to consider
- Video chat functionality between recruiter/professor and student
- Reminder function for scheduled interviews held within program
- Search for jobs from companies that are hiring
- Student virtual portfolio interface for student and companies to manage/review
