

**The team goal:** Help connect students connect with job opportunities based on their desired future plan and allow students to build and market their academic achievements and work experience to potential employers from day 1 of education.

Team Feature List:

- Student's login interface
- Student's dashboard interface
- Estimating learning process system
- Auto-scheduling function
- Student virtual profile interface for companies to consider
- Creating Study Groups between students
- Interface listing customized job/internship opportunities for the student

Sketches:

1) The first sketch is about a registration feature for the app, BridgeWay. The sketch details what the registration page should look like and how the user can input data onto the page.

2)

The sketch shows a registration page for an app called "BridgeWay". At the top, there is a navigation bar with four items: "Home", "About Us", "Your Jobs", and "Profile" (which has a user icon next to it). Below the navigation bar, the page is divided into several sections. The first section is titled "Names" and contains two text input fields: "First Name..." and "Last Name...". The second section is titled "Birthday Info" and contains three input fields: a dropdown menu for "Month" (with "January" and "February" visible), a text field for "Day...", and a text field for "Year...". The third section is titled "Contact Info" and contains two text input fields: "Phone #..." and "Email...". The fourth section is titled "Upload Resume and Portfolio" and contains a text input field with an upward arrow icon and the text "Click to upload files...". At the bottom right of the page, there is a button labeled "Create Account".

3) NOTES:

- Various text boxes allow the user to input strings, such as their names
- The Month section for the birthday includes a dropdown box.

- c) The top of the page includes navigation buttons to go to other pages.
  - d) The bottom-right section includes an upload option for users to upload files onto their account.
- 1) The second sketch is about a calendar system for the user, specifically a representation of a week. The calendar is divided up into different days with a list of notes in bulleted forms.

The sketch shows a calendar interface with the following components:

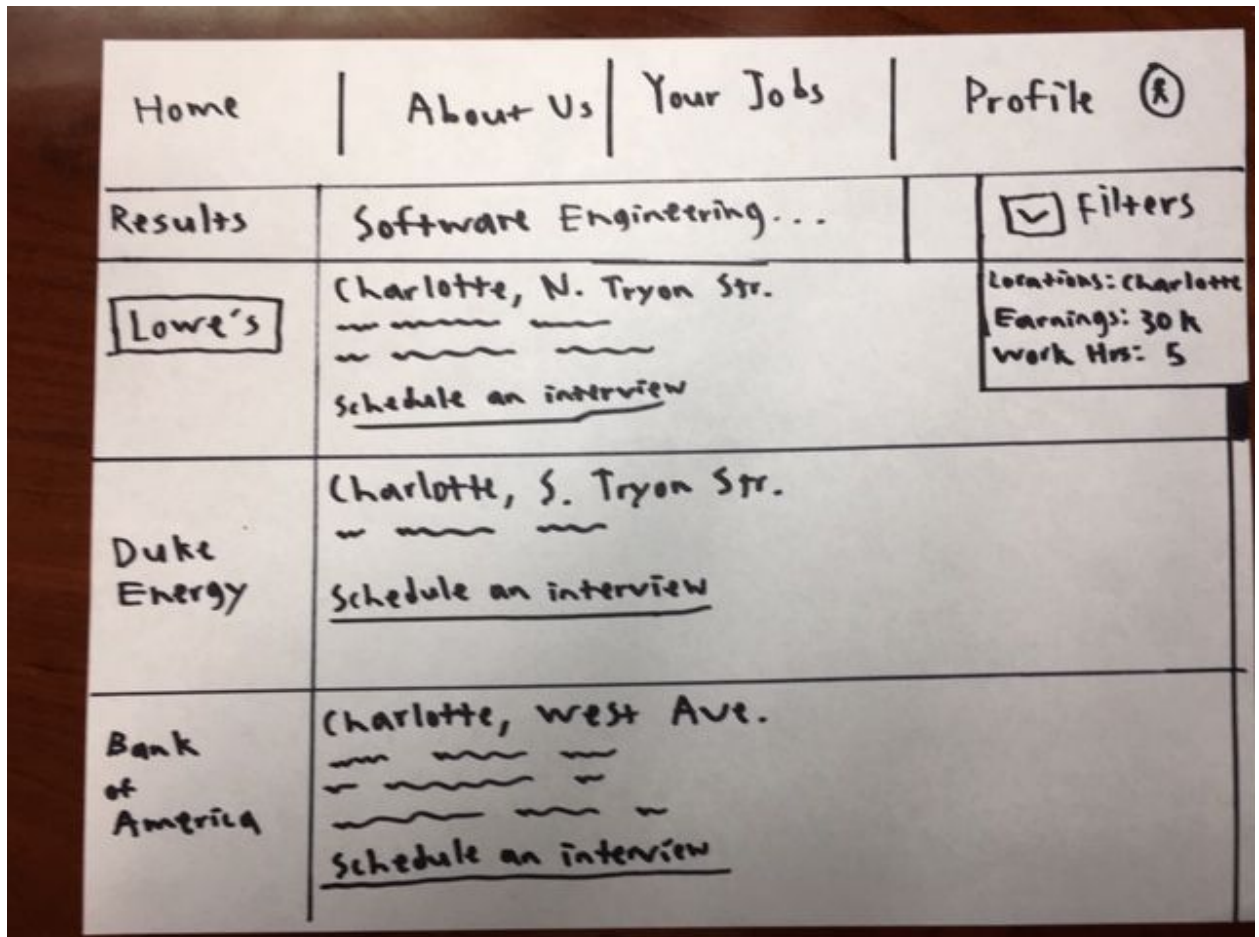

- Notification Box (Top Left):** Contains a checkmark, the text "New Notification", and a list item "- Interview for Lowe's".
- Date Selector (Top Center):** Displays "Sept. 23, 2022".
- Calendar Grid (Main Area):** A table with 5 columns representing the days of the week.
 

Monday 23	Tuesday 24	Wednesday 25	Thursday 26	Friday 27
<ul style="list-style-type: none"> <li>• ~~~~~</li> <li>• ~~~~~</li> <li>• ~~~~~</li> <li>• ~~~~~</li> </ul> <div> <div>~ I</div> <div>- see Reminder</div> </div>	<ul style="list-style-type: none"> <li>• ~~~~~</li> <li>• ~~~~~</li> </ul>	<ul style="list-style-type: none"> <li>• ~~~~~</li> <li>• ~~~~~</li> </ul>	<ul style="list-style-type: none"> <li>• No Activities for today</li> </ul>	<ul style="list-style-type: none"> <li>• ~~~~~</li> <li>• ~~~~~</li> </ul>
- Navigation (Bottom):** Two arrows at the bottom, labeled "Previous week" (pointing left) and "Next week" (pointing right).

- 2)
- 3) NOTES:
- a) Each column can be edited by adding notes.
  - b) The text box represents texts being typed in, with a reminder option on the bottom.
  - c) There is a notification list on the top left of the page for users to see while viewing their calendars.

- d) There is also the option to switch between a week format to month or year formats on the top right of the page.
- e) The bottom of the page has buttons to navigate the user to the next or previous weeks.

1) The third sketch is an interface for a list of jobs to view for the user.

2)

3) NOTES:

- a) The top of the page, like the first sketch, has navigation buttons that allows users to navigate to different pages of the app.
- b) The left of the page shows the businesses listed.
- c) The top middle of the page has a search bar that allows users to type in strings.
- d) The right of the page has a filter list which allows users to filter out businesses by typing in strings to fulfill their expectations.

- e) The rest of the page contains the descriptions of the business and a link to schedule an interview with their recruiting managers.
